COST:

\$50.00

Masterson Method® Demonstration is coming to you!

During The Masterson Method® Demo, a Masterson Method Certified Practitioner will show you how The Method helps to improve performance, communication and relationship with your horse. Anyone is welcome!

Come get a taste of this incredible method of bodywork. Your practitioner will explain how to recognize what the horse is telling you through visual and palpable responses. Then, in the demonstration, they will show you how these responses enable you to get deeper releases of tension within the horse, that it may otherwise be unable to release on its own. This is a truly interactive process that results in a change in relationship, and an improvement in movement and performance.

This demonstration is open to anyone and everyone, of all disciplines, that has interest in learning how to help your horse feel better and to develop an even deeper bond with your horse in the process. Come out and enjoy. For those who want MORE....

"If you want to learn how to connect on a deeper level with horses, if you want to learn how to help your horse relax and release tension, this Method is a must."

-M. Leahy

Improving
performance,
communication
and relationship
with your horse

WHAT'S IN IT FOR YOU?

Improved relationship and communication with your horse.

Make your horse more relaxed and comfortable.

Enable your horse to overcome limitations.
